# 31 BIEMH

**YOU MAKE IT  
BIG AGAIN**

**Bilbao  
13-17 June  
2022**

**BIEMH will be back bigger and better on 13-17 June 2022**

The event will once again bring together leading firms in advanced manufacturing in an edition marked by the need to re-establish links and showcase the upturn in the sector.

Huge motivation and energy is going into organising the event, where exhibitors and visitors from all over the world will be able to make business contacts, create synergies and develop new business opportunities.

Concurrent staging of the ADDIT3D & BeDIGITAL trade shows

## KNOWLEDGE, TECHNOLOGY, SOLUTIONS

Placing technology at the service of industrial productivity is fundamental in providing efficient solutions to complex manufacturing problems and moving forward in an ever more competitive market. That is why 3D equipment, machinery, products, and tools now feature heavily in precision mechanics, advanced engineering and digitisation.

With that in mind, we present the 31st BIEMH, where exhibitors will be presenting ground-breaking technologies and visitors can see how the latest advances can be applied to their equipment and services.

## A NEW BOOST FOR BUSINESS

BIEMH is a benchmark event for many specialists and firms. It is a key element in re-establishing direct contacts and giving a new boost to innovation, valuable personal partnerships and sales operations. Each new edition brings to bear a whole system designed to create new opportunities, see contacts face-to-face and do deals.

Because BIEMH 2022 is an event for meetings and reunions, to share knowledge and access the latest technology in operation. But it is also an event for face-to-face contacts.

A place to meet and interact with many more strategic specialists and experience the full energy of the sector.
